

LG31.81

Forage
Maize

Massive starch yields!

- LG31.81 is early to harvest (Maturity Class 8) and suitable for most sites
- With massive starch yields higher than most varieties on the NIAB list, LG31.81 produces energy rich silage
- LG31.81 combines an early harvest, good dry matter yield and massive starch yields, providing energy dense silage to improve milk yield and liveweight gain from forage
